

# Healthcare Prayer

*Thank you God for your grace, for the ability to help those who suffer, and the opportunity to help those that provide direct care to others.*

*Thank you God for the blessings that I have received to work in a vocation that I enjoy and to serve with purpose, to do worthwhile work, and to make a difference. I am grateful that I have health and material things to live with; that I am responsible at home, at work, and at caring for my community; that I can give love.*

*In addition, for the greatest blessing of all, I thank you God that I can share these gifts with others. Amen.*
