

Hourly Rounding

Improving Nursing And Patient Care Excellence

Hourly Rounding is a powerful tactic to improve nursing and patient care excellence. Studer Group partnered with the Alliance for Health Care Research (AHCRC) to conduct the largest study ever completed providing evidence that certain nursing staff behaviors reduce call lights and allow nurses to respond more efficiently to patient requests.

Providing
a Proven
Call Light
Reduction Strategy

CALL LIGHT STUDY

This study published in the September 2006 issue of the American Journal of Nursing clearly demonstrates how, when nurses follow recommended behaviors during their hourly rounds, call lights can be reduced by as much as 38 percent. Additionally, organizations see:

- ▼ Improved Clinical Outcomes
- ▼ Decreased Risk Through Less Patient Falls and Hospital Acquired Decubiti
- ▼ Increased Patient Satisfaction
- ▼ Increased Employee Satisfaction

“Hourly rounding has been the most rewarding thing I’ve done in 32 years of nursing. The positive results with staff and nurses is almost too good to be true.”

Vicky McCain, MHA, RN
Chief Nurse Executive,
St. Bernardine Medical
Center,
San Bernadino, CA

PRODUCT ADVANTAGES

This interactive training guide and video provides:

- ▼ A cost-efficient way to teach and coach leaders, nurses and ancillary staff.
- ▼ A consistent framework of staff behaviors and actions to use when rounding on patients.
- ▼ Video vignettes to demonstrate patient interactions using eight rounding behaviors.
- ▼ Tools, resources and tips to hardwire the approach.
- ▼ Leader training with specific implementation steps and how to collect baseline data and track results.

Hourly Rounding

Improving Nursing And Patient Care Excellence

Hourly Rounding equips staff at all levels with the ability to use certain behaviors and actions to not only reduce call lights, but reduce patient falls, hospital acquired decubiti, and save significant nursing time. To maximize learning potential, Studer Group provides unique ways to learn and implement in your organization:

VIDEO

Individual Learning Session:

- ▼ Quint Studer, CEO of Studer Group provides a personalized introduction and lays the framework for hourly rounding in your organization.

Nursing Presentation of Hourly Rounding:

- ▼ Lyn Ketelsen, RN, MBA and Studer Group Coach teaches and demonstrates the eight hourly rounding behaviors.

Call Light Study Results:

- ▼ Chris Meade, PhD and Executive Director of the Alliance for Health Care Research presents the call light study results.

Hourly Rounding Vignettes:

- ▼ Hourly Rounding vignettes allow participants to view health care professionals using the eight hourly rounding behaviors.

Leader Session:

- ▼ Lyn Ketelsen steps you through the implementation process from collecting baseline data to monitoring results.

Begin implementing hourly rounding in your organization today. Let us teach you the skills to achieve amazing results.

IMPLEMENTATION GUIDE

Specialty Unit Implementation:

- ▼ The guide provides information to customize the hourly rounding behaviors to any specialty unit or area.

PARTICIPANT GUIDE

50 Participant Guides are provided to turn training into an interactive process including:

- ▼ Staff Hourly Rounding Pocket Cards
- ▼ Vignette Observation Sheets
- ▼ Tools to Collect Your Own Call Light Data and Prepare for Implementation
- ▼ Frequently Asked Questions
- ▼ Implementation Planning Table
- ▼ Specialty Unit Worksheet
- ▼ Hourly Rounding Competency Test and Training Certificate
